THE DEVELOPER
Berkeley builds beautiful, successful places, blending homes, parks and public realm with great facilities to create fantastic communities where people love to live. We have built more than 19,500 houses in the last 5 years, across London, Birmingham and the South of England. We work with key stakeholders to tackle the shortage of good quality homes and make a lasting contribution to the landscape and communities that we create.

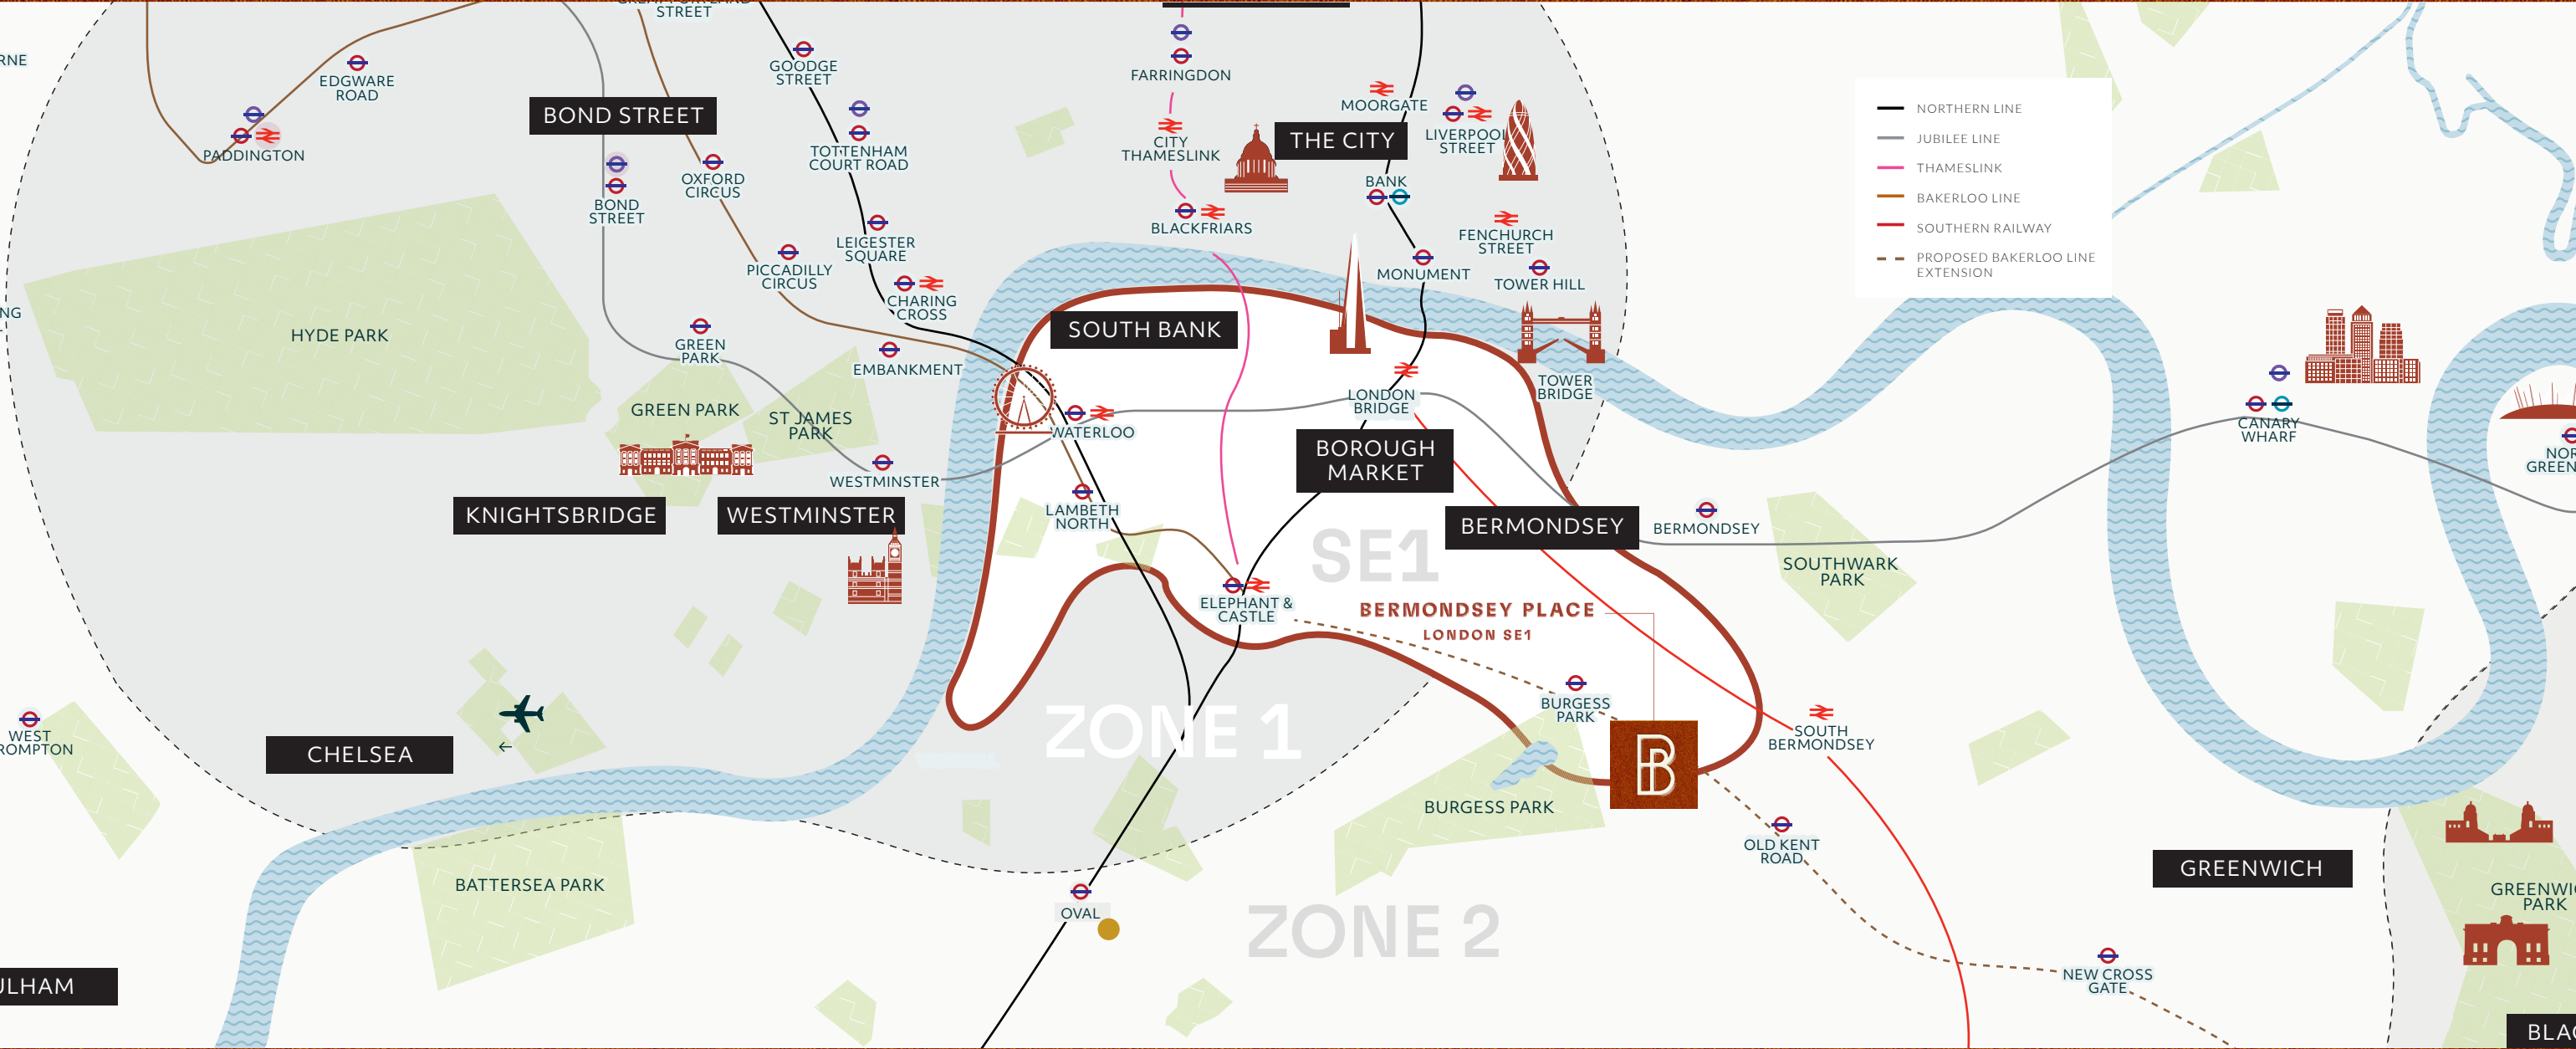

We have a wealth of experience in delivering complex developments like Bermondsey Place that include homes, community facilities and large areas of public realm. Experts in placemaking, we believe the spaces between the buildings are just as important as the buildings themselves.

Our places are characterised by exemplary and sustainable design that take into account future climate change, facilitate the creation of strong, inclusive communities and promote a net biodiversity gain. Examples of such developments include Woodberry Down in Hackney, Goodman’s Fields in Aldgate, South Quay Plaza in Tower Hamlets, Kidbrooke Village and Royal Arsenal Riverside in Greenwich.
